

CONSUL ENSURED SUSTAINED WATER SUPPLY

ALLAHABAD: Consul Consolidated, manufacturer of enterprise energy solutions, in association with UP Jal Nigam is ensuring uninterrupted water supply through improved power conditioning for tubewell water supply system in the Kumbh Mela. Consul installed 60 KVA Consul voltage stabilizers' at the UP Jal Nigam water pumping stations to ensure stabilised power for uninterrupted water supply to the pilgrims throughout the fair. Consul servo stabilizers have also been installed at all 46 water

pumping stations that supply fresh water 24X7 to the entire Kumbh city through more than 550 kilometres of piping with 20,000 connections. Director marketing, Consul Consolidated, NP Krishnan said Consul stabilisers with their rugged build were designed to work in all power conditions and performed exceptionally, to overcome the challenging power environment and ensuring availability of water to the millions of pilgrims on a 24X7 basis.
